

# RAIN BARRELS

The Sammamish Plateau Water and Sewer District no longer sells rain barrels due to program costs and storage issues. Rain barrels are now readily available at a number of area garden and hardware stores. You can also purchase them over the Internet. For more information on rain barrels and where to get them, please go to King County's rain barrel web page at the following link:

This web page will provide you with resources and information on rainwater harvesting and local rain barrel sources.
